LANGUAGES

Thai (Native) · English (Working proficiency)

PROFESSIONAL EXPERIENCE

Senior Developer

Entelech Digital | February 2026 - Present

- Built a Next.js ordering portal connected to Shopify, with customer account access, draft orders and live store data.
- Build WordPress and PHP tools for inspection forms, pricing checks and other day-to-day work.
- Fix WooCommerce catalogue, quotation and product-data issues on live sites.
- Prepare backups, rollback steps and release checks before changing live websites.
- Set up analytics, review technical SEO issues and test important customer journeys.

WordPress Developer

Geekster Digital Solution | December 2024 - July 2025

- Built WordPress websites, WooCommerce stores and custom themes for retail and service businesses.
- Connected WooCommerce to inventory data and automated follow-up emails.
- Set up Google Tag Manager, Google Analytics 4 and Search Console for site tracking and SEO checks.
- Built multilingual WordPress sites with WPML and Polylang.

UX/UI Designer / WordPress Developer

TMES Co., Ltd. | May 2024 - November 2024

- Designed page layouts, signup and purchase flows, and contact forms in Figma.
- Turned approved designs into responsive WordPress pages with Elementor Pro.
- Worked through briefs, revisions and handoff details with the team before launch.

Webmaster / IT Support

Thai Maritime Enforcement Command Center | October 2021 - May 2024

- Maintained the organisation's WordPress website, including content, software updates and routine security checks.
- Updated website content and structure to support government ITA compliance requirements.
- Handled software troubleshooting, system maintenance and video-conferencing support for internal teams.

Aircraft Mechanic

Royal Thai Naval Air Division | April 2019 - October 2021

- Inspected, maintained and repaired helicopter engines, gearboxes and related electrical and instrumentation components.
- Followed technical manuals, checklists and handover routines where accuracy mattered.

CORE CAPABILITIES

- WordPress websites:** Build and maintain WordPress sites, custom themes, plugins and Elementor pages.
- Online stores:** Build and fix WooCommerce and Shopify stores, product pages and checkout flows.
- Custom web applications:** Build Next.js tools and connect store, customer and order data through APIs.
- SEO and performance:** Fix technical SEO issues, set up analytics and test page speed.
- Live-site support:** Investigate issues, prepare rollback steps, test releases and document changes.
